DETAILED ACTION
Response to Amendment

1. In response to the Amendment received on April 6, 2006, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claims 2-4. The claim rejection under 35 U.S.C. § 112, 2nd paragraph for claims 1-13 has been overcome by the amendment and has hereby been withdrawn for consideration.

Response to Arguments

2. Applicant's arguments, see Remarks/Amendment, filed April 6, 2006, with respect to claims 1-13 have been fully considered and are persuasive. The rejection of claims 1-13 under both 35 USC 102(b) and 35 USC 102(e) or, in the alternative, under 35 USC 103(a) by Noguchi et al has been withdrawn. It appears applicant is relying on the amendment better defining said claimed reactive surfactant as comprising "polyoxyethylene polyaryl phenyl ether or nonylphenyl amine salt" to distinguish over the prior art. After reconsideration, it is deemed that Noguchi et al does not expressly teach and/or render obvious the use a reactive surfactant comprising the moieties as instantly claimed. Therefore the rejection of Noguchi et al has been withdrawn. Concerning the amendment to the claims; the examiner appreciates applicant's appendix documents II and I, however these were not convincing since these are not in English (non-translated). The examiner is unable to discern if Appendix I is describing MS-60 and its constituents, although it can be seen that MS-60 is listed on page 2/5. However, it appears that on page 5/5 of Appendix I is describing SINOPOL 609 as comprising polyoxyethylene polyaryl phenyl ether and not MS-60. Additionally, while REM-A10 is listed on page 1 of Appendix II, it is unclear if said product comprises a nonylphenyl amine salt. Clarification is requested. With regards to applicant's amendment, it has warranted a new rejection—see below.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:
The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it

Art Unit: 1711

is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1 and 5-13 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for bis (polyoxyethylene polyphenyl ether) methacryl sulfate ammonium salt and REM-A101—see examples, does not reasonably provide enablement for all reactive surfactants that comprise polyoxyethylene polyaryl phenyl ethers or nonylphenyl amine salts. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use or make the invention commensurate in scope with these claims. Applicant only teaches MS-60 and REM-A101. It is unclear if applicant is intending to claim every reactive surfactant comprising said moieties or not. Applicant's disclosure only proved for use of those found in the examples, wherein it can be seen in example 1 MS-60 comprising the claimed constituent. As for the others found in applicant's disclosure, it is unclear if these actually comprise nonylphenyl amine salts or not—see above remarks. Appropriate action is requested.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
